Help Kids with Your Empty Ink & Toner Cartridges

Turn Trash Into Cash for the Child Rescue Network

Winter Springs, FL – June 9, 2008 - Kwixar, Inc. has teamed up with the Orlando-based Child Rescue Network (CRN) to help raise funds for the work the Network does to help protect children. Kwixar will turn empty ink and toner cartridges into cash for CRN. And you can help too by simply dropping off your empty cartridges at the Kwixar office.

Working in conjunction with an organization that pays non-profit groups for recycling ink and toner cartridges, Kwixar will collect empties and send them off for donations to the Child Rescue Network. Kwixar, who sells compatible ink and toner themselves, will also include a postage-paid recycling envelope with all their future inkjet cartridge orders. "Our customers can help the Child Rescue Network, and be kind to the environment by simply using the recycling envelope found with their order," said Doug Jarrett, President of Kwixar.

The Kwixar office is in The Atrium Building located at the corner of Edgemon Ave and State Road 434. The office address is 301 West SR 434, Suite 319. You can drop off inkjet and laser cartridges as well as cell phones, ipods and pdas at the Kwixar office Monday - Friday from 8:00am - 4:00pm.

Child Rescue Network is dedicated to protecting children. Through private donations and corporate sponsorships CRN offers a variety of free community outreach programs and family advocacy services. Find out more about CRN at www.childrescuenetwork.org.

Kwixar offers premium quality compatible ink and toner at discounted prices giving consumers an alternative to manufacturer brands. Contact Kwixar at (407) 706-0086 or www.kwixar.com.
